Find a Blue Shield network provider online

Locating a physician or facility in the Blue Shield of California PPO network is easy. Follow the instructions below to find a provider online.

Find a physician in California

NOTE: Simply click on the link below and follow the steps to search for a provider. (You <u>do not</u> need to log in.)

1) Click on the link PPO Physician.

   A pop up page *may* appear that reads: This page contains both secure and non-secure items. Do you want to display the non-secure items? Click **Yes.**

2) Under *Provider Types*, check the box next to **Doctors**.

3) Click on **Advanced Search.** Here, you may search by *doctor name, doctor type or specialty, additional language or male or female*.

4) Under **located near**, enter your city and state or zip code.

5) Click **find now**

6) The default distance/radius search is 15 miles. To expand or narrow the search radius, click zoom (+ or -) in the map on the provider search results page.

Find a facility in California

NOTE: Simply click on the link below and follow the steps to search for a provider. (You <u>do not</u> need to log in.)

1) Click on the link PPO Facility.

   A pop up page *may* appear that reads: This page contains both secure and non-secure items. Do you want to display the non-secure items? Click **Yes.**

2) From the selection, check the box next to **Facilities**.

3) Click on **Advanced Search.** Here, you may search by *facility type* or *facility name*.

4) Under **located near**, enter your city and state or zip code.

5) Click **find now**

6) The default distance/radius search is 15 miles. To expand or narrow the search radius, click zoom (+ or -) in the map on the provider search results page.
