CVT OFFERS RESOURCES FOR MEMBERS DURING WILDFIRE SEASON

[Fresno, CA, July 29, 2021] – According to the National Interagency Fire Center, there are currently 85 large fires across 13 states. Wildfires threaten lives directly, and wildfire smoke can affect many more. They spread air pollution thousands of miles away, causing breathing difficulties in even healthy individuals, as well as those with heart disease, diabetes, asthma, COPD and other lung diseases.

In response, CVT has developed a [list of resources and health plan-specific information](#) that may be helpful to our members during this year's wildfire season.

CVT is closely monitoring this situation and will update this list routinely as new resources and information become available, so please check back regularly.

Should you have questions, **please call CVT Member Services at (800) 288-9870.**

Established in 1984, California's Valued Trust (CVT) remains today as one of California's largest self-funded public schools trusts specializing in healthcare benefits for the education community. As a jointly managed trust, CVT is governed by a Board of Directors which is equally comprised of union and management representatives. The board works collaboratively with the CVT staff to identify, negotiate and purchase the highest quality health benefit programs for all of our members throughout California. CVT serves more than 234 districts and 158,000 members throughout California. For more information, visit www.cvtrust.org.
